

CARDINAL BUSH BUDDIES

Young Explorers, Brighter Tomorrows.

CARDINAL BUSH BUDDIES

Your Imagination. Your Safari. Your Adventure.

Every child sees Africa differently.

Some dream of tracking lions through the bush. Others imagine becoming wildlife photographers, discovering animal footprints, learning how to survive in the wilderness, or spending time with a real safari ranger.

At **Cardinal Bush Buddies**, we believe the most extraordinary adventures begin with a child's imagination.

So, before their safari begins, we ask one simple question:

> "If you could create your very own African safari adventure, what would it look like?"

And then we listen.

Because Bush Buddies isn't simply about taking children on safari. It's about creating the safari they've always imagined.

THE BUSH BUDDIES SAFARI DREAM QUESTIONNAIRE

Before the family travels, each child receives a beautifully designed, age-appropriate **Bush Buddies Safari Dream Card.**

Instead of a conventional questionnaire, we make it fun and interactive.

FROM THEIR IMAGINATION TO THEIR ADVENTURE

This is where Bush Buddies becomes different.

We take the child's answers and work with the lodge, ranger, and activity team to create a personalised experience.

MY BUSH BUDDIES

SAFARI DREAM CARD

CARDINAL BUSH BUDDIES
Young Explorers, Brighter Tomorrows

My Name: _____ Age: _____

1. If you were a safari ranger for a day, what would you do?

2. Which African animal would you most love to see, and why?

3. Would you rather track animal footprints, discover tiny creatures, or learn the secrets of the bush?

4. What do you imagine happens in the African wilderness after dark?

5. If you could take one photograph on safari, what would it be?

6. What is something you've always wanted to discover about Africa?

7. If you could invent your own safari adventure, what would you call it?

TIPS FOR PARENTS?

For younger children, parents could help them answer, draw pictures, or record a short voice message.

For older children, we could introduce more adventurous challenges.
